Jhana,

It depends on what they want to do with the water.  
They seem to think that companies will want to buy the water to use for fracking.  
Since we (DEQ and OKC SW) do not regulate fracking, I gave them a contact at the Ok. Corporation Commision and they were going to see if this is possible.  
They said a customer wants a million gallons ASAP.

By the way, they do have a stormwater permit which is OKR052279.

We are heading out to the stream site now to watch them collect soil samples.
